Executive Director

Michael Owens, Ed.D.
Associate Director for Instructional Services

Francine Holland, Ph.D.
Program Director for Special Education

Region IV ESC is an equal opportunity employer.

PREFACE

The *Directory of Agencies Serving Individuals With Disabilities (0-21)* is published through the Child Find/Serve program of Region IV Education Service Center. The directory has been developed to assist agencies and organizations which provide services to individuals with disabilities, ages birth through 22. Ideally, the directory will serve as a basis for coordinated planning and service delivery to these children and youths.

This directory lists direct service providers within the geographic boundaries of Region IV. Also included is a limited selection of statewide resources, national organizations and local parent/advocacy groups which provide information and other services.

No attempt has been made in the directory to evaluate the quality of services. If appropriate organizations do not appear in the directory, contact Region IV for consideration for the next edition.

REPORT

The purpose of this report is to provide a comprehensive overview of the current state of the project and to identify the key challenges and opportunities for the future. The report is organized into several sections, each focusing on a different aspect of the project. The first section provides a general overview of the project and its objectives. The second section discusses the current state of the project and the progress made to date. The third section identifies the key challenges and opportunities for the future. The fourth section provides recommendations for the future and a timeline for implementation. The fifth section provides a summary of the report and its findings.

The report is organized into several sections, each focusing on a different aspect of the project. The first section provides a general overview of the project and its objectives. The second section discusses the current state of the project and the progress made to date. The third section identifies the key challenges and opportunities for the future. The fourth section provides recommendations for the future and a timeline for implementation. The fifth section provides a summary of the report and its findings.

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN AND GROWTH OF THE EARTH.

§ 1. The Earth is a sphere, and is composed of a solid nucleus, surrounded by a fluid atmosphere.

§ 2. The solid nucleus is composed of a mass of molten matter, which has gradually solidified.

§ 3. The fluid atmosphere is composed of a mass of gas, which has gradually condensed.

§ 4. The solid nucleus is surrounded by a fluid atmosphere, which is composed of a mass of gas, which has gradually condensed.

§ 5. The fluid atmosphere is composed of a mass of gas, which has gradually condensed.

§ 6. The solid nucleus is surrounded by a fluid atmosphere, which is composed of a mass of gas, which has gradually condensed.

§ 7. The fluid atmosphere is composed of a mass of gas, which has gradually condensed.

§ 8. The solid nucleus is surrounded by a fluid atmosphere, which is composed of a mass of gas, which has gradually condensed.

Statewide Resources |

Statewide Resources

The following resources are a selection of agencies and organizations which will serve individuals with disabilities throughout the state of Texas. Some of the resources cited have a catchment area, although all will consider students from the seven counties which constitute Region IV.

Most of the agencies offer residential placement. The few which do not have been included due to the uniqueness of the services which they provide. Information on specific services may be obtained by direct contact with the service provider or by contacting the education service center in which the agency is located.
